

Unique design of uprights out of end, compared with the traditional treadmill, it is more integrated, concise, luxury, and in the design, the

uprights & handles adopt simple streamlined design, through the whole

deck, giving the user a full sense of security and enhancing the running

experience

Two options: one is with the uprights, the other one is handles integrated

with uprights

Optional function: "B--Cloud" custom club "cloud service" -sweep code login, the user's workout data can be saved by the cloud

Optional function: smart detection system -- intelligent warning, when the

user is at the back end of the treadmill (the arm can't touch the emergency stop switch position), the speed automatically slow down to 3km/h, which further improves the safety of the machine

Central Console Type Android System

Features of Screen:

21.5inch Full view screen

Multi touch

Resolution: 1920x1080

Electronic Readout Full Screen

Language of Central Console : Chinese, English

Entertainment: WiFi, Internet, TrainingCourse,

Apps, USB interface, 3.5mm headphone jack, Speakers

Default Program

Built-in 7 fixed programs

1 customized program

Touch Key Board : Start, Stop, Model, Program, Speed, Incline

Dimension 2235x955x1750mm

Max User Weight 160KG

Running Belt:

Thickness: 2.5mm/3.1mm

Perimeters: 3400mm Width: 600mm

Running Area :1610x550mm

Speed Range :1-20km/h

Elevation Range :0-20%

Rollers Diameter: 75mm Length: 695mm

Power

Continuous Power: 3Hp

Max Power: 9Hp

Motor Ultra-quiet AC Motor

Inverter Domestic Brand/Mitsubishi (Imported)
